ITS Hourly Rate Additional Terms
In order to use these rates, a Statement of Work defining scope, terms, estimated schedule, estimated hours and required skills must be agreed to and signed by both parties.
The rates apply only to Services provided by IBM's Integration Technology Services business unit and delivered within the United States.
Pricing is based upon resources working 8:00 a.m. to 5:00 p.m. (local time) Monday through Friday, except IBM holidays, unless otherwise specified.
The rates are valid for hourly Services only and are not valid for fixed priced engagements.
The rates apply to custom Services and do not apply to pre-packaged IBM Services offerings, or hardware or software maintenance contracts.
IBM will provide resources based upon resource availability.
IBM may engage subcontractors to assist in providing Services, in which case IBM remains responsible for the fulfillment of its obligations and for the performance of the Services.
IBM reserves the right to determine the appropriate skill level(s) and the appropriate resources on an engagement by engagement basis.
The rates do not include travel and living expenses. IBM will invoice you separately for actual and reasonable travel and living expenses. Travel and living expenses are generally estimated at 15% to 20% of the professional fees.
These rates only apply to Statements of Work authorized after this Rate Card agreement is signed by both parties. Existing Statements of Work are not subject to these rates.
